ZHOURCKH: THE COMEDIC ADVENTURES VOLUME I

To further incentivize the need for justice so the Bluesie-Jazz comedy festival is realized in reasonable time(necessitating a forensic audit), I am offering ZHOURCKH: THE COMEDIC ADVENTURES VOLUME I as a print only receipt book. Your support means the world to me. If you met me at the get together(because only those who care in the least with their support should criticize the other comedian, me) and you show me a verifiable \$50 and over support of the free books for life cause, this print book is yours directly from me. I intend to show love to those who show me love. This too is important to me. This book will not be made available online in ebook or print. Your receipts mean the world, freedom and justice to me. Justice is important to me. I will not stop working hard towards achieving it. May you be blessed in

more ways than I can offer for participating in my cause for justice. I am excited to write the book as much as I am about my own jokes as this differentiating x black woman. So, my work here is to write two sets of comedic acts, one of which I will personally perform. I live for love, truth, knowledge, wisdom and natural reality. Thanks for being a part of it:

Author's Note

If this work connects with you intellectually, spiritually, emotionally, or in any other way personal, it is free. If it doesn't, and you're rather of a different preference and won't ever come back to my works. It is free as well. Graces. I have never sought to run the world or rule it. Not my thing. I do seek to connect with humanity and make cross generational differences with practical, emotional and spiritual intelligence—matters connecting humanity and saving lives like mine against the odds life brings that I do know about intimately. Works are usually accounts of life, nature, science, politics and more in experiential reality. It is a privilege to be alive despite what I have been through. And I don't intend to take this deserved privilege lightly.

The work as well as others like it can be found on my website available free at www.edewlogics.com. To support free works like this and others available on my site, [please support the free books for life cause](#). Thank you.

On Thankful Realities

Cars are not existential. They never were. And they are abodes of fake non scientific evil lies. My readers, when red assed Adele sings about rain is it raining? Absolutely not! The clouds are here. They are the rain. They are raining. They are not raining. They are the rain. The clouds are here, so the clouds and rain I see and are seen. If the clouds and rains are already here, and down, who beats them down? Smart questions are for smart people. I often say to get out of my primary gene pool, NEGATIVE SPACE AND WATERS. These fools think I joke. However much life and reality is funny to you, don't dilute your deluded genetic degenerate world with mine. Stop stalking me cars; with cars. Natural and genuine existence destroys cars with perspective alone. I don't care if it's black, white or colored. Stop stalking me with your cars.

I am not khaleesi who uses fake claims of harassment to get ahead. I get persecuted for the wrongs done to me instead. When I say trauma, I mean it. I love myself and my privacy too much. I almost died for my life. I almost died because of their evil. And I don't believe I cannot get ahead but by my own dedication and work made necessarily important to any contribution. Life is harsh for someone like me. Cars are such things that are non-integral to my existence and labor. Stop stalking me with cars. If I am in your car, you're a friend. I am not in your car, at no point in the spacetime continuum am I in your car existentially. I want true friendships because I am true to friends. Otherwise friendships will be easy. My friendship is a privilege. It already is every day with you my readers. Nature has natural provisions for movements. A car isn't one of them. And my readers, however difficult life is, I have a lot of love to give just because of that. I am not mean and evil. Envy-deranged evil people will like you to believe that. And emotionally intelligent is a

part of my environment for intelligence. I want someone to love. Is he intelligent, kind, loyal, loving and such, merely a fraction of what I will be to him? And he has two legs? Does he? Then he can say hi to my face without the gaslit phantom facade of a car and I will say hi back.

The black car will be differentiated. I don't have a white car. Red is what's there. And it is too much, as i will explain, imagination of superiority being the underbelly of black. The fantasy in that thing are huge phantom mistakes. This spatiotemporal mistake will make scientists continually stupid in spacetime reality. I assure you. There are rules of nature that are nothing but scientific. My points are all mine. They can never belong to the black man. I am not a dark black woman, not a person of color. Certainly not Caucasian. I need only count one. Two, you better be gay or dead. Four you're not in the differentiating x environment. Three, that's a two multiple of six. Five, you're definitely dead. Six, don't even freaking think about it.

I don't go anywhere with runaway trains. How stupid can infinite trains be? The train doesn't have a single black point. It imagines infinity. It imagines physics and therefore, it imagines movement. Infinity is primarily a point. That's my main definition for it in physics and mathematics. The geometry is a different aspect. The conscious coordination of an infinite train matters? Does it? There are no such things. Unless you were born degenerate and in a runaway train, everyone grows up. Everyone grows. Never believe what evil people preach. I will warn again to stop stalking me with all your nonentity cars and artificial appendages. Not just because you'll be a rapist(And I am not khaleesi). The Caucasian threatens stupid people with worthless fake nooses. If he has a noose, I have a noose. We are extremes. He doesn't have a single black point because against black he is white. Then the second there is a black point, he is thrown out. I don't care what he does in his red space. I don't do nonentity science. The question you smart people, wherever you are in the world, have to ask is simple. Who has the first noose? In physics: whose noose is higher? Pride, prejudice and arrogance befalls the better and the

best, don't they my readers? May my efforts if true and tested reverberate across time and space.

A white car with four black tires is an un-derivable lie. Remember that if you have down, what you don't have up, you must be beaten down or you don't exist. A natural law very much like gravity. It is inevitable. I can yank those four tires because he can't afford a single point without being turned out. Or I can flatten everything to turn him out. Animations, how important! Zombies are more than philosophical or metaphysical objects. They are part of mechanics in physics. He can make his tires red. Or even better in the same mode. They can be the color white, yellow or the color purple or whatever color he claims he's breaking down into. I am sure he can. He's a genius! The black car must be differentiated. So, the smartest among us, NASA with great funding, Harvard, Yale, Oxford, Cambridge, and such billionaire makers, this little differentiating x black woman wants to know something. Help? Help? With the fate of the white car with four black tires known, how many points is a black car with four black tires worth? Always be doing your math and physics. Tell me that and you're beginning to understand why I love math and physics. Black must be differentiated from black.

I am grateful. For all the harm and evil done to me, I didn't die. People die for a lot less. I am thankful I know who I am. I am also thankful, I know what they don't know.
